THAT P. O. AFFAIR.

A Charge of Indignation From the Citizens. Particularly About the Dismissals.

The changes made in the post office status and staff, and particularly the dismissal of Miss Newbery and Mr. Walker, two of the most efficient members of the staff, who were willing to continue at the reduced salaries, have aroused an almost universal outburst of condemnation in Belleville.

To the credit of the Liberator he is said, the majority of those who have spoken on the subject are so emphatic in condemnation of the affair as are the Conservatives.

One well-known Liberal said that it was an outrage. No new and untrained clerks ought to have been put in. The party would be seriously injured not only in Dominion, but in provincial politics in this district. He would pay but little attention to politics and devote himself to his business.

Another Liberal, who for forty years has voted for and enthusiastically supported his party, said that he would never cast another Grit vote.

Such are fair samples of the expressions heard on all hands.

The question which chiefly agitates the public mind is as to where rests the responsibility for the dismissals.

Certain Liberals state that the Executive of their Association were authorized from headquarters to choose two persons for appointment as clerks, but that they did not agree as to the new appointments. Also that all the other appointments rested with Mr. Duncan.

Others say that Mr. Duncan was directed when to employ.

It will not take long to ascertain the facts of the case, and the Intelligencer will not fail to do its duty to the public in the premises.

Good Times Are Coming.

The year 1897 is the beginning of good times. Belleville is bound to boom. No time for people to make investments—buy stocks, corner lots, goods, etc. It is evident the time to make money has come. We have invested in one of the finest stocks of Men's Furnishings ever shown. Underwear, Gloves, Hosiery, Hats and Caps, Shirts, Collars, Cuffs and Neckwear. Nothing old; all brand new, at 50c and 60c.

OBITUARY.

THOMAS GOLDSMITH.

One of the oldest residents of the city passed away at four o'clock this morning in the person of Thomas Goldsmith.

The old gentleman, who had been unwell for some time, died at his home, 100 months old and a bright child for her age.

Deceased was born in the 3rd con. of Sidney, on the old Goldsmith homestead, on Sept. 28th, 1818, and died at his home, 100 months old and a bright child for her age.

He spent seventy years of his life on the farm, and for the last twenty-two years has lived with his son, Dr. P. D. Goldsmith. He was one of a long-lived family, as four brothers and two sisters, all very old, are still living.

They are Henry and Joseph, of Sidney; John, in Michigan; Elijah, in Chicago; Mrs. Benjamin Gilbert, of Sidney, and Mrs. Jas. Walker, of this city.

He married in his youth a Miss Perry, from near Kingston, and she lived with him for fifty years. Their surviving children are: Dr. P. D. Goldsmith, this city; Stephen, Sidney; Harvey, Minnesota; William, a dentist in London, Eng.; Mrs. VanSicklen, Colborne.

Deceased was a great believer in outdoor exercise and wanted to be at work up to the time of his illness. He was a Methodist and a Reformer. He had a vivid remembrance of the troublesome times of 1812 and 1837 and often recounted his impressions of those to his friends. In later years, the associates of his younger days having all passed away, he often expressed the wish to be taken across the river, where he would meet his old friends.

The funeral will take place at 2:30 to-morrow to the cemetery.

It took good deals at World's Fair, is endorsed by Boards of Health, it destroys germs and noxious odors, prevents contagious diseases, etc. In 1 lb. packages at 25c.—ALEX. LAY.

To the Public of Belleville.

Having heard that other coal dealers are reporting that the People's coal is not good coal, and does not burn or last as long as other coals, and an only agent, and other false statements, I beg to state that I came to this city to try this coal for my own use, and to try it for the people for whom I am agent. I have now used it for several days, and I can guarantee to be hard coal and of good quality as any in the market. I buy coal in the United States from a company who are not in the coal combine and as such are not obliged to use inferior coal. No agent, but my coal direct.

A trial order solicited.

The People's Coal Co. will deliver their coal to any place in the house or yard. Our aim is to please our customers.

BURGLARS AT WORK.

Mr. J. Loucks' Residence Entered and Money Stolen.

The second burglary in the city within the past week occurred last night, and as a result some one is richer a few dollars. The scene of operation by the midnight visitors last night was the residence of Mr. Jacob Loucks, Yeomans st. It is almost impossible to tell how an entrance was gained to the premises, but it is surmised that it was by way of the front door which, in addition to other doors, was found opened when Mr. Loucks arose this morning. The marauders went upstairs to the bedroom where Mr. Loucks was sleeping and took a pocket-book from his trousers, which hung at the head of the bed. They also stole a pocket-book from a skirt belonging to Mrs. Loucks, which was hanging upon the wall near the bed. They took the pocket-books down stairs and after emptying them of their contents left them lying in the hall. They contained about \$32. Some small change and copper, which were in Mr. Loucks' trousers pocket, were also taken. Nothing was missing from the premises. There is no clue as to who committed the offence.

Little Boys' Reefers.

Good Times Are Coming.

The year 1897 in the beginning of good times. Belleville is bound to boom. Now is the time for people to take advantage of the times—buy stocks, corner lots, goods, &c. It is evident the time to make money has come. We have invested in one of the finest stocks of Men's Furnishings over shown. Undergarments, Hosiery, Hats and Caps, Shirts, Collars, Cuffs and Neckwear. Nothing old; all brand new, as SCHULTZ'S.

Police Notes.

A man named Hupert bought a bag of potatoes from a man named Kent on Saturday, but did not receive them.

A number of boys created a disturbance at the "five points" in the grove last evening. The police went over and quieted them.

"The Deacon's Daughter."

The above title seemed to arouse the curiosity of the New York public, so much so that on opening night the theatre was packed to the doors. The success of the play was maintained, and during the play the New York management the theatre was crowded. The same big success was duplicated in all the large cities. The company is a powerful and evenly balanced one, and Miss Lillian Kennedy is a fine actress, a characterisation, which for histrionic ability has never been surpassed on the American stage.

THAT POST OFFICE AFFAIR.

A Fabrication of the Ontario Exposed.

Public Indignation Shows an Abatement—A Government Organ Condemns It.

Public opinion shows no change with regard to the Post Office dismissal. Strong disapproval is everywhere expressed, and all but a small clique of rabid Tories denounce the whole thing in strong terms.

There are hurries to and fro and counsellings amongst the Grit party, and gatherings in little knots. What does it all mean? Have they found that their Post Office was "loaded up the other way?"

Lord High Executioner wields his axe too freely. It has hurt those who stood behind him.

The first evidence given of the superiority of the post office under the new arrangement was the receipt by the Intelligencer on Saturday of a copy of the London Free Press addressed to one of its local correspondents. The package, which contained two copies of the journal in question, had not been opened in the post office.

FABRICATION EXPOSED.

The following official denial of the Ontario's cook and-bull story sent the Conservative Association's dealing with Post Office appointments has been forwarded to that journal for publication.

To the Editor of the Ontario.

Sir,—Your statement in your issue of Saturday, the 2nd instant, that the Conservative Association had a meeting at which the Post Office clerks who were to be re-employed were selected is absolutely false.

Yours truly,

J. F. WILKS,
Secretary West Hastings Liberal Conservative Association.

IT CAN'T BE DEFENDED.

The main topic of conversation now-a-days in Belleville is the personnel of the new Post Office staff.

While there cannot possibly be any two opinions as to the necessity of the reduction in the number and salaries of employees, it must be admitted that there is ground for complaint at the appointment of two inexperienced persons as clerks, when competent members of the old staff were willing to serve at the reduced salary.

Had Miss Newbery and Mr. Walker been allowed to retain their positions, it would have been better from the standpoint of political effect, to speak of the good old-fashioned idea of primary justice. It is well-known that neither the Postmaster-General nor the Liberal party of West Hastings as a whole is responsible, and it is to be hoped that further consideration of the action taken may lead to a restoration of those deserving clerks to the positions which they so thoughtfully taken from them.—Belleville Sun.

"Thoughtlessly" is a good word in the above connection. The new-fledged organ would no doubt have defended the action if it could.

Men's \$5 Ulsters

The Oak Hall has the finest stock of \$5.00 ulsters ever brought to Belleville. Big collars, coat well lined and a big assortment of colors. These coats are as good as we sold for \$7.50 a few years ago, and you know these same \$5.00 coats can be bought in the city to-day at \$7.50.

The annual Harvest Festival and Thanksgiving services at Christ Church were held yesterday. The weather was delightful and large congregations attended both the morning and evening services. Able sermons along the line of thanksgiving were preached by Rev. Rural Dean Carey, of Kingston.

The ladies of the congregation are to be congratulated upon the decoration of the church interior. Flowers, fruit, plants, grain and foliage were artistically arranged, making most pleasing effect.

WOULD-BE SUICIDE.

A Wealthy Pictonian Cuts His Throat in Kingston.

Kingston, Oct. 3.—On Friday night a gentleman arrived at the City Hotel here and registered as Adolphe Wycoff, Picton. He was taken to room 10, and his maid went with him. Yesterday morning he did not make his appearance and it was thought he was taking an extra sleep. After 2 o'clock in the afternoon Proprietor Randolph and Clerk Thomas McGinnis thought something must be wrong and commenced an investigation. The door being bolted and locked, they looked over the balcony, and their horror discovered that Wycoff had slashed his throat with a jackknife and was bleeding to death. Constables McGarry and Timmerman were summoned from the street and they lost no time in bursting the door open. The man and room were literally covered with blood, the would-be suicide clenching the knife in his right hand. He was immediately removed to the General Hospital, when an examination of his throat revealed that he had made a dozen wounds, but being a heavy, powerful man of about 50 years, he still lived. When searched \$245 in gold was found in his pocket, and when his watch was opened it disclosed \$20,000.12 besides gold and silver watches, jewellery and other valuables. Adolphe Wycoff is well known as one of the wealthy men of Prince Edward County, and is a member of several farms in North Maryburg, near Picton. He left home two weeks ago with the intention of coming to Kingston for medical treatment, but seems to have gone in another direction. A week ago his wife received a letter from him, dated Sydney, the writing in which gave her an idea that he was not all right. He finally arrived in Kingston by way of Cape Vincent and his wife heard no more from him until she was notified of his attempted suicide. It is believed that he had secured two empty bottles which contained a mixture of brandy and lachnum. Since the death of his first wife and daughter Wycoff has been falling in health, and this, with a stroke of apoplexy some months ago, it is thought has mentally affected him and eventually led to yesterday's attempt at suicide. Friends say that he had also some trouble over his father's will, he being the sole executor, other relatives threatening court proceedings if a suitable division was not forthcoming. His wife and her father arrived at the hospital this morning. He died by his first wife in his own home. He inherited the major part of his father's estate and at the present time is worth about \$50,000. He had been in Picton for some time, and his wife was hovering between life and death, but the hospital authorities think it possible for him to recover unless blood-poisoning sets in. It is thought a large amount of money he had with him when taken from the Picton bank before he left home.

BELLEVILLE POST OFFICE.

The facts in connection with the degradation of Belleville Post Office and the changes made in the staff are tolerably well known to our readers; but a clearer understanding of them will be derived from a statement of the action taken, read in the light of the letter published by Mr. Thomas Ritchie, who was the Liberal candidate last year, in explanation of his position.

1. The office was taken from under the Civil Service Act and its status lowered that of a town office.

Mr. Ritchie was opposed to this.

2. The Postmaster was dismissed with out any cause being assigned.

Mr. Ritchie's expression on this point leaves the impression that he was opposed to that action.

3. Four of the former clerks, who were willing to continue at the reduced salary, were not re-employed, and two other persons, alleged to have been selected by the executive of the Reform Association, were appointed.

Mr. Ritchie was opposed to this. In his letter he said:

"If the Postmaster-General, who is the responsible head, insisted on taking the office out of its present standing, that then in that case the Postmaster-General should be directed to employ what help was needed from the existing staff of employees willing to accept the salary provided and were found capable and efficient."

Not only so, but he also exposes the fact that the action, which was taken in opposition to his wishes, was "the action of a certain few who are popularly supposed to represent" the Liberal party in Belleville, but who are not entitled to do so.

On the representations of this "certain few," Postmaster-General Mulock took the course which he did, and it created such a feeling of indignation in the city that Mr. Ritchie wrote his letter, as he says, "not in order to vindicate myself, which is a matter of very little consequence, but to commend to the great body of honorable electors in this city the opinion that it is sought to attach to them on account of their action, certain few, who are popularly supposed to represent them."

Such are the facts. What does the reader think of being ruled by a little clique whose language partnership led to such deplorable results?

If the Reform party do not publicly repudiate the clique and condemn their action, the people will hold them responsible.

CURIOUS LOGIC.

In giving his testimony under oath in his famous libel case against Gronier, Mr. Tarte said on the first day of the trial:

"He left it when that party became 'impotent and had ceased to be the exponent of the principles on which it was founded.'"

On the third day of the trial he said, "I am an old Liberal-Conservative."

Here, then, we have an old Liberal-Conservative who, instead of assisting his party to become once more the exponent of the principles on which it was founded, deserts to the enemy and becomes the chief organizer of the party which had always opposed the very principles which he professed to support so warmly. Strange logic!

But worthy of Mr. Joseph Israel Tarte, "patriot," etc.

EDITORIAL DRIVITIES.

One of the first duties of the charitable is to assist the suffering by the distribution of food by the hands in the corners part of his province.

At the present time Ontario parents are paying out for food more than they are receiving in return. This is a sad state of affairs in every respect similar to that in Ireland for 1846. No wonder that last year three different firms paid the Government a subsidy of \$1,000,000 for school books.

Though Liberal politicians claim a surplus in Ontario, it is evident in doing so they seek to pull the wool over the eyes of the people. There have been no surpluses for the past three years and to cover these up the machine at the present has been selling the assets of the province.

That the Government of Ontario is hard up is apparent from the introduction of so much special taxation. The taxes are levied from almost every source of income, and the fact of this, has his possessions taxed after death if they are not sold before.

The Ontario Government recently took \$75,000 in license fees from the municipalities and gave back to them only \$25,000. Since then expenditures in the municipalities have been \$1,000,000. Now new and worse conditions have brought about a new and to grant the Government takes from the municipalities \$1,000,000 in license fees or \$2,000,000 more than formerly.

Ponton's Character—His Economy—

Testimony as to the Hole in the

Partition—The Lockett Case—

—The Little Bit of Paper—

Nothing Incriminating the Accused.

(Special to the Intelligencer.)

NAPANEE, Oct. 12.—The bank robbery

case was resumed this morning at 10 o'clock

in the Court House before Police Magis-

trate Daly.

Thos. Whelan, caretaker of the bank,

was examined, but elicited nothing new.

J. L. Boyes was called as a witness, re-

specting a cheque given by Ponton,

which was not passed through the bank

when he paid it. He had had a num-

ber of dealings with accused and found him

squre. On one occasion he took a deposit

to the bank showing it was a certain

amount. When he called next time at

the bank Ponton said he had given him \$5

more than the deposit slip showed. Pon-

ton was not extravagant. He had his

clothes cleaned and made over.

T. G. Davis was also sworn. Ponton

had given him two or three cheques in pay-

ment of a life insurance premium. There

was nothing irregular about the transaction

as far as he knew.

Geo. A. Cliff, carpenter, testified to hav-

ing examined the partition where the

entrance was effected by boring the boards

out with an auger. They were bored from

the outside. The hole was 10 1/2 inches

wide. He had found one hole in the

inside face of the partition. To Mr. Mal-

den, bank attorney, he said it must have

been after the shot iron door was opened.

Mr. Porter he would not swear that the

door could not have been pried so as to

loosen the two screws that held the lock.

The screws were not broken. The hole

was 1 1/2 inches wide and the screw

did not go in over 2 inches of an inch.

A. W. Grange, landlord of Ponton's

sleeping room, and that either Ponton or

Douglas, the hotelkeeper, rented the

room from him. He tried to rent them

two rooms in the third story over Durand

and Macdonald's law office, but they would

have them, saying they were too large.

The rooms were not in a good state of re-

pair. He did not go in over 2 inches of an

THE BANK INQUISTION.

David Young, Expert Safe-Maker, in the Box.

The Safe Was Opened Without Violence—It Was Burglar-Proof and Could Only Be Opened by One Who Knew the Combination.

(Special to the INTELLIGENCER.)

NAPANEE, Oct. 15.—The hearing of the bank robbery case was resumed at 10 o'clock.

The first witness called was expert David Young, of the J. & J. Taylor Safe Works, Toronto, who was telegraphed for to come and open the vault and safe after they refused to work the day after the robbery was committed.

Witness said he has had twenty-three years experience with safes. His firm had made the vault door and safe in use at the bank.

After working three or four hours he succeeded in opening the vault and safe, and found that the combination of the combination lock had been changed when the robbery was committed.

There was no evidence of violence in entering the vault.

Witness described the condition in which he found the vault and safe, and his evidence in this regard corroborated that given by former witnesses.

He said it would be impossible for any one to open that safe without knowing the combination, as it was absolutely burglar-proof. The vault was also burglar-proof. Court adjourned at one o'clock.

The London Free Press says: "Mr. Frank Love has returned from Hastings County, where he had been prospecting for some gold mining lands. Mr. Love reports that the country is wonderfully rich in minerals."

Ten years ago I insured one of my prominent citizens on the endowment plan, and have now just handed him the check. This is better than taking shares in loan and savings companies, where you have no guarantee as to when the stock matures. It is a good plan, and I am glad to hear that Mr. Love reports that the country is wonderfully rich in minerals."

Conservators Organize.

The Conservators of Coleman and Blecker Woods met last evening for organization in Mr. Corby's office. After they had formed their committees and transacted other important business, they adjourned to Hotel Quebec at 8 o'clock. He made a neat speech in which he thanked the gentlemen in Belleville who had been so kind to him since he came here, spoke very confidently of finding oil here in the near future. HELP TO FIRE SUFFERERS.

THE COUNCIL GRANT \$100 FOR A CHARITABLE PURPOSE.

A Short and Uninteresting Session of the City Fathers—\$30,000 of Debentures to be Re-sold—An Adjournment at an Early Hour.

The City Council proceedings last night were not of a very interesting or interesting character, owing to there having been but one committee meeting, namely that of the Public Works. There were at no time more than 12 Aldermen and the Mayor present, and the speakers numbered but three persons. The chief business transacted was the granting of \$100 towards the sufferers of the late fire in Russell and Prescott streets.

Those in attendance were: Mayor Johnson, Aldermen Peter, Paton, Doyle, Marshall, Luscombe, Chisholm, Naylor, Wallace, Hungerford, Harris, Lott and McGee.

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS, ETC.

Mr. John Henderson, of Ottawa, Sec'y. Trust of the Relief Committee, in Russell and Prescott Street, sent a communication asking for aid for some 2,000 persons who were in destitute circumstances.

From H. Gordiner, asking for the privilege of cleaning snow off the sidewalks with the City's horses.

Mr. T. D. Ralston, Cow Inspector, presented a communication, asking for the establishment of two more points, one in Coleman Ward near Albert College, and one in the south-east corner of the city.

A petition was presented from a number of ratapans on Yeoman street asking that the drain on that street which connects with the Cathart College, and is cleaned out and deepened. Referred to the Public Works Committee.

A number of accounts were presented, and, with a few exceptions, were referred to the Executive Committee.

COMMITTEE REPORTS.

The only Committee which presented a report was the Public Works, which recommended the payment of the pay sheet another account.

On motion, the Council went into Committee of the Whole on Reports, Ald. Naylor in the chair.

The Public Works Committee's report was adopted and a few accounts were ordered to be paid.

The communication relating to aid for the fire sufferers was taken up.

Ald. Pettie said it was a calamity and we should contribute to the necessity of the sufferers. He moved that the Council give \$100 to the fund. His motion was seconded by Ald. Marshall.

Ald. Hungerford ordered the members of the C.P.R. to be notified of the aid as a public use and give aid to these sufferers with a free and liberal hand.

The Mayor supported the resolution. Other towns and cities, he said, had freely contributed and Belleville should not be behind. It was a unanimous vote.

Ald. Doyle said that as the money was for a charitable purpose he was in favor of it.

The motion was unanimously adopted.

After the passing of a few accounts the committee rose and reported. On motion, the report was received and adopted.

INQUIRIES.

Ald. Hungerford asked if any communications had been received recently from Mr. Hays, Manager of the C.P.R., in reference to cars standing on Pinnacle.

The Mayor answered in the negative.

Ald. Hays asked if the water tap on the corner of Cedar and Main st. had not been attended to.

As the chairman was not present the question remained unanswered.

BYLAWS.

Ald. Doyle introduced two bylaws, namely, to rescind \$30,000 of debentures and to issue in reference to a strip of land, Reynolds' estate, on Victoria avenue.

On motion the Council went into Committee of the Whole on bylaws, Ald. Luscombe in the chair. The bylaws were passed through their various stages and numbered 1,880 and 881 respectively.

MOTIONS.

Ald. Hungerford moved that the drain on Dundas st., between Pinnacle and Church st., be removed to a street level.

He moved that the Council be authorized to make a survey of the drain and to have the same built, as the drain was in a frightful condition.

The Mayor and Ald. Starling spoke in support of the motion, which prevailed.

Ald. Marshall moved that a sidewalk be built in front of the late Col. Brown's residence on Bridge st.

Ald. Luscombe said the finances would not warrant such an expenditure at this late season of the year.

After some further discussion the motion was defeated.

NOTICE OF MOTIONS.

Ald. Pantar gave notice of motion that, as improvements are being made on the street, he requested the Council to have the street widened to 24 ft. wide.

He moved that the Council be authorized to make a survey of the street and to have the same widened to 24 ft. wide.

A number of shovels were purchased to have them made at 30c.

The Council adjourned at 9:30.

Lined and Turpentine are not only popular remedies, but are also the best means to relieve a cough and soothe the inflamed membrane of the respiratory tract.

Dr. Cline's compound is a reliable and safe remedy to take away the unpleasant taste of turpentine and lined.

Mothers will find it a valuable remedy for children; it is pleasant to take, and will positively cure Croup, Whooping Cough and chest troubles.

A Year Ago To-day.

A year ago to-day was a wonderful day for Belleville. On the 19th of October, 1896, the late Ald. Yeoman met a tragic death in his store, which was consumed by fire. His memory is still green in the hearts of his many friends and his loss is still felt in this city and vicinity.

Mr. E. A. Little, M.P.P., was again nominated for Carleton Place at a Conservative Convention held at Little's at Hamilton.

Pure blood is absolutely necessary for perfect health. Heron's Compound is a true blood purifier, and a great health giver.

Hygienic Cocoa.

Cowan's Hygienic Cocoa is absolutely pure and healthy. It is recommended by physicians. Try a tin today.

Mr. Kerr's Funeral.

The funeral of the late Mrs. John Kerr from her late residence, William st., at 2:30 this afternoon was largely attended by friends of the deceased. Rev. T. J. Thompson, pastor of John St. Church, conducted the service at the house and also at the cemetery. The bearers were Messrs. John Forin, Francis McKay, James Smith, W. P. Hudson, John McKinnon and Philip Hanly.

Bad Made Worse.

There are many preparations on the market for the cure of toothache that are absolutely injurious to the teeth. "Quick-cure" is recommended by the leading druggists, but it is a sure cure for toothache, either having any evil effect on the teeth, gums or nerves.

Pointers on Poynter.

"An able lecturer, and with a clear and distinct voice"—Daily Journal, New York. "The scenes were presented with an interest and accuracy that is rare in any lecturer."—Ashbury Park Daily Press.

"It is undoubtedly the most charming and authentic pictorial exhibit upon the topic of the history of the world in this country."—Daily Express, N.Y.

Daily Intelligencer.

THAT OUTRAGEOUS THREAT.

The assertion is a fabrication and the blood-thunder content is a "hoax."

It is too much to ask that the Ontario Temperance Society should make the outrageous threat which it alleges to have made.

This is the manner in which the Tory mouthpiece endeavor to accomplish its purpose for the threat made at the Twentieth meeting that the Ontario Temperance Society would be dominated on the advent of the Whitney Administration.

We have no objection to giving the Intelligence the information required. The author of the "outrageous threat" was Mr. Harry Corby, M.P.

We have Mr. Corby's authority for stating that the Ontario's assertion is an absolute falsehood.

HARDY AND PROHIBITION.

For the past few months the organs of the Hardy Government have been loudly protesting that they have no doubt of their triumph in the approaching election, but it is now quite apparent that they are merely trying to keep up their courage.

Already, indeed, some of the most radical of them have been forced to admit that the position of the Government is very precarious.

An editorial on the subject in Saturday's Montreal Witness was very significant: "the only religious" going so far as to admit that unless something miraculously intervenes Hardy's fate is sealed."

We appreciate the admission we must remember that this journal has been conspicuous, even among the Organs of the Ontario Government. During the last two campaigns in this province it worked incessantly to whet the prohibition vote into flame for Mowat, and its influence undoubtedly counted for considerable.

It was Mowat's most powerful agent in spreading before the eyes of the Ontario people those bright visions of sweeping reforms culminating in the liquor traffic in Ontario. We all know how rapidly those anticipations were shattered; and how, with most broken treasury, Hardy threw off the mask and coolly informed the voters that, although he had declared his Government to be a "temperance Government," he had no intention of keeping those public promises which he, Sir Oliver Mowat, had made in pre-election days. This action, of course, laid the Montreal organ in a cruelly awkward position, and opened its eyes to the duplicity of the man whom it had long held up to the world as a pattern of Christian statesmanship.

Now, however, it cannot come to the aid of the Government, and its previous promises are so completely broken, that the limit has been at last reached with the prohibition vote.

They want no more alliances with Hardy, Ross, &c. As a preliminary to another attempt to work up the "no license" men for its friends, the organ proposes to inform its readers that the Ontario Temperance Society is in the hands of the Licensed Victuallers' Association. This statement we can most emphatically and authoritatively deny. The Conservative leaders are in the hands of the liquor traffic; they are honorable, independent men, who seek the support of the electors on the ground that the present Government has betrayed the confidence of the people and therefore soon to become another Mercier regime.

Another Mercier regime, from the Toronto "Globe" having, we have been told, having no policy on the questions of the day. This statement is really a compliment, as it proves that he has made no appeal to the prejudices and selfish interests of any class, but Mr. Whitney has announced his platform: one road broad, to satisfy any reasonable man, too broad, in fact, to be grasped by the narrow intellects of the writers of the Globe press.

His platform is: Economy and efficiency in the public service; reform of the educational system; preservation of our forests and a vigorous encouragement of our mining interests. On the temperance question, Mr. Whitney's policy is straightforward and manly. He does not believe that the province is yet ripe for an extreme prohibitory measure. It is true that a large majority for prohibition was registered at the late plebiscite, but it was no index to the feeling of the province. Many people regarded the whole affair as a farce, and the liquor advocates, on their side, made no effort to win. If we are to judge from experience, thousands of men who believe in the prohibition theory would oppose it tooth and nail if put into practice. This has been the case wherever it has been tried—under the Scott Act, for instance. The prohibition is that if Sir Oliver Mowat had kept his promises and passed a prohibitory Act he would have found in a year or two a reaction greater than that which overbalanced the Scott Act. Values the great mass of the people have been educated to a firm belief in such a policy, there seems to be but little use in attempting to prohibit the sale of intoxicants.

There is, however, a strong feeling that the trade should be restricted even more than it is, and that the rising generation should be exposed to unnecessary temptation. It is felt that the time has come for a gradual, forward movement towards the abolition of the saloon.

Along this line the Conservative leaders are evidently prepared to move. They will weigh the facts, and will proceed carefully, with due regard for the interests of all concerned. This is what Mr. Whitney offers to the temperance people, and with all the respect for the opinions of the "Witness," we consider it eminently satisfactory that anything that can be offered to them by unimpaired and disinterested politicians of the Hardy Government, who have deliberately disregarded their solemn pledges.

EXCURSIONING PAINS.

From the Patriot, Charlottetown, P.E.I.
Mr. and Mrs. Thos. Blackburne are well known residents of Hamilton, P.E.I., and both are very warm in their praise of Dr. Williams' Pink Pills, as they believe this medicine saved the life of their daughter after she had fallen. Mr. Blackburne gave the facts as follows:
"Early in the summer of 1896 my daughter Rachel began to complain of severe pains in her head and down her spine. These pains continued for several days, causing great agony, and would then relax for a few hours. They were often accompanied by fits of vomiting and diarrhoea. These symptoms continued for some time, but I procured medical aid, but who came so peculiar as to balk the doctor's skill. The pains, which at first were severe, had become almost unbearable, and the distress was so constant that I attempted to cross the river unaided she would fall prostrate on the floor. Her appetite had forsaken her entirely. The only nourishment she took for two months was a little beef tea and a small quantity of lactated food. I had heard of the cures effected by the use of Dr. Williams' Pink Pills, and had recourse to give them a trial, and was very grateful to find that almost from the outset they helped her. She kept on using Dr. Williams' Pink Pills for three months, and her recovery was very rapid, so rapid indeed that at the end of that period she was able to engage in light housework and to walk some miles at a time. Never in her life did she enjoy better health than at present, and I am over thankful to the discoverer of this most effective medicine, Dr. Williams' Pink Pills."
Dr. Williams' Pink Pills CURE when other medicines fail.

THE RESULT OF LA GRIPPE.

From the Caskahque, Que., Chronicle.
Mr. Newell Walbran is a well known farmer living near East Clifton, Que. As his friends and neighbors know, he passed through a very trying illness as a result of a severe attack of la grippe, and when a correspondent of the Chronicle called upon him, he had no hesitation in illness and cure. Mr. Walbran said, "I believe I owe my life to Dr. Williams' Pink Pills and I am glad to have a chance to say a good word in favor of that reliable medicine. During the winter of 1895, when la grippe was so prevalent, I had a severe attack of it, and it left me so weak that I was unable to do work of any kind. I consulted a doctor, but as he did not appear to help me, began using different advertised medicines, but the result was the same, I got no benefit, but on the contrary was growing weaker. At times I was subject to racking spells, which verged upon total unconsciousness. I was falling day by day and was becoming hopeless. A neighbor who called to see me urged me to try Dr. Williams' Pink Pills, and I sent for a few bottles. After using them for a couple of weeks, I began to feel better, and after the first symptoms of relief, I began to gain steadily. I am now as well as any man, and can do as good a day's work as ever. I did. I know that my cure is due to the use of Dr. Williams' Pink Pills and I am always glad to recommend them."
Mrs. J. Curcio, Donatville, Ont., writes:—"I cannot find words enough to thank you for what Dr. Williams' Pink Pills have done for me. I suffered many years with weakness and pains throughout my entire system, but thanks to your pills, I am once more restored to health. These pills are a tonic not a laxative medicine."

You Can be Cured.

If you are ill it is not you alone who suffer, but those who depend upon you--those to whom you dear--whether you are a man or woman.

The worst diseases in the world are slight ailments at first. If you are feeling weak, nervous, or "out of sorts"--if you are in all unwell, take the proper remedy, Dr. Williams' Pink Pills--AND GET WELL.

HELPLESS FOR MONTHS.

From the Trenton, Ont., Courier.
The editor of the Courier having obtained some relief from rheumatism by the use of Dr. Williams' Pink Pills, and having observed their effect upon a young man to whom he had recommended their use, in the interest that everyone should take in the public well, interviewed Mr. Wm. H. Pickering on the subject. Mr. Pickering told his story as follows, and the editor can vouch for its entire truthfulness. "It would be impossible," he said, "for me to speak too extravagantly of the merits of Dr. Williams' Pink Pills. In the fall of 1891 I contracted a severe cold, which developed into quinsy. Following this, paralysis set in and I continued to grow weaker until at last I could not stir off my chair without assistance. I lost the entire use of my limbs, and it looked as though I was doomed to spend the winter of my days a helpless wretch. Mr. Young, the Courier's who had observed the excellent results following the use of Dr. Williams' Pink Pills in other cases, advised me to give them a trial, and I acted on his advice. I had finished my third box when the hope for relief began to make itself felt, and from that time the progress towards complete recovery was rapid. I am now in possession of my full health and strength, and I feel that this result is entirely due to the excellence of Dr. Williams' Pink Pills and I shall always have a warm word to say in their favor."

A WORD OF CAUTION.

A few unscrupulous tradesmen--their cupidity excited by the great reputation of Dr. Williams' Pink Pills--make up or buy in the wholesale market ready-made pills, colored pink, which will sell as "Pink Pills" and offer as a substitute for Dr. Williams' Pink Pills. Such pills are a fraud. The recipe for Dr. Williams' Pink Pills is known only to the Dr. Williams' Medicine Co., Brockville, Ont. All substitutes are therefore useless. To be sure of having none but the genuine pills, purchasers should not ask for "Pink Pills," but for "Dr. Williams' Pink Pills for Pale People," and which is printed with red ink on white paper and bears the full trademark "Dr. Williams' Pink Pills for Pale People." Inside the wrapper are Dr. Williams' directions for use. Pay to attention to any dealer who claims to have "the same thing under another name," or something else (just as much). In case of doubt it is better to write (enclosing five cents for one box or \$2.00 for six boxes) to the Dr. Williams' Medicine Company, Brockville, Ont.

INCIDENTAL CONSUMPTION.
Mrs. Walter Berington, Orono, Ont., says:—"I was run down in health until I was a mere wreck. I occasionally spit blood, had distressing pains in the lungs and stomach, had no appetite, and constantly grew about. The doctor said my trouble was consumption. As I was constantly growing worse instead of improving, my father advised me to try Dr. Williams' Pink Pills. I began their use and at the end of the first week I had gained one and a half pounds in weight. The doctor heard I was taking the pills and said I must discontinue them, as I had gained too much weight. I told him that I had found that I had lost the weight I had gained, and I again began using them. After taking them for a second week I had gained two pounds and could be better than I had been doing. The result was that I continued the use of the pills until I had taken thirteen boxes, when I was fully restored to my former health and strength, and while taking them my weight increased twenty-three pounds. I am now enjoying better health than I had done for years and have Dr. Williams' Pink Pills to thank for it."

LUMBERMEN'S OPINIONS.

The Toronto Star, which, although a supporter of the Dominion and Ontario Governments, is decidedly out of accord with their policy as to the exportation of saw-logs to the mills of Michigan, has done a valuable public service in securing from the lumbermen who are interested in the matter an expression of their ideas on the subject. The weight of opinion, it may be said, inclines toward the imposition of an export duty on saw-logs by the Dominion Government, as the following extract from the Star's synopsis will show:
"J. S. Findlay, of Owen Sound, writes as follows:
"The feeling is almost everywhere that the Dominion Government is not doing its duty in allowing the exportation of saw-logs to the mills of Michigan, and is placing an unfair burden on the lumbermen who are interested in the matter. DEATH OF MR. M. ROSS.

Picturesque Canadian Figure Passes Away.

A Physician, Naturalist and Ornithologist—Prominent in Struggles for Freedom and Humanity—Friend of Lincoln and Garibaldi.

The Toronto Star devotes about two columns to the career of our former fellow-townsman, Dr. M. Ross, who died suddenly at Detroit on the 27th inst. We make the following extracts from the Star's article:

Dr. Ross was a familiar figure in this city, and in the very road, about as broad as he was long, he walked along the streets downtown, buttonholing citizens, especially newspaper men, and arguing in an enthusiastic voice his two faiths, the conservation of the woods and the domination of vaccination.

Alexander Milton Ross, M.D., the eminent Canadian philanthropist, scientist and author, has had a career of striking interest. He was born on December 13th, 1832, in Belleville, Ont. His parents were descendants of the Scotch Highlanders, who came to Canada from Rossburgh, Scotland, in 1783. His father, John Ross, came to New York City, and, after struggling with many adventures, became a compositor in the Boston Herald, and, subsequently under the name of William Cullen Bryant, the poet. Mr. Bryant has been much interested in Ross, and never after remained his steadfast friend.

It was during this period that he became acquainted with General Garibaldi, who at that time was a resident of New York, and employed in making cables. This acquaintance soon ripened into a warm friendship, which continued unbroken down to Garibaldi's death in 1882. It was through Dr. Ross's efforts in 1874 that Garibaldi obtained his pension from the Italian Government. In 1881 Dr. Ross began the study of medicine under the direction of the celebrated Dr. J. C. Watson, and subsequently under Dr. Traill, the physician of the University of Toronto.

During the day and studying medicine at night, he received the degree of M.D. in 1855, and shortly after received the appointment of surgeon in the army of Nicaragua, where he was commended by General William Walker.

He subsequently became actively and earnestly engaged in the anti-slavery struggle in the United States, and, as a result, was imprisoned in the penitentiary of the State of New York for four months.

Dr. Ross was a naturalist and ornithologist, and was the author of several books on these subjects. He was also a writer of fiction, and his works have been translated into several languages.

Dr. Ross was a man of great energy and determination, and his life was a constant struggle for the betterment of his race and his country.

Manchester Children in Canada.

To the Editor of the Manchester Guardian.

SIR, As many of your readers are aware

of my recent visit to Canada, accompanied

by my wife, in connection with the

organization work of the Strangways Institu-

tion, it may interest them to know some-

thing of the results of that visit.

I was two weeks in the Dominion, nearly

every day of which was given to investi-

gating the results and prospects of juvenile

emigration. During this period we were

enabled to see fifty of the boys and girls

sent out in former years.

I may premise by saying that the head-

quarters of the Strangways work in

Canada is at Belleville, a thriving town

lying half-way between Montreal and

Toronto, and in the centre of a rich farm-

ing country. Here is the Marchmont

House, under the direction of the Rev.

Robert and Mrs. Wallace, who, through

selected home, the arrangements at the

Marchmont House are very complete.

The names of each boy and girl is

entered on arrival in the books of the

house, and the books are kept being

given to each. On one side are the ante-

cedents of the child, on the opposite side

the names of the foster parents or employers,

and the names of the children, and every

event in that boy or girl's life, whether

good or bad, is carefully noted. The

reports of the visitors, of whom there

are three, constantly visiting among the

children, are preserved, the letters to and

from the children and the changes which

from time to time have to be made, are

recorded, and, except in the extreme

cases of boys or girls in after-life inter-

estingly cutting themselves off from con-

nection with the house, every child is

regularly visited and reported on, and

can be traced for years. The need and

value of a central place, where all the

Marchmont House supplies cannot be

estimated. Those who have had any ex-

perience in placing children in homes

know that frequent changes are neces-

sary, and in some cases, owing to sick-

ness, or to other causes, change is

necessary, and it is not unusual for a

child to go to time of sickness or trouble,

and Mr. and Mrs. Wallace to advise or re-

ceive the child, and to place him in a

new home in the West. We saw them

under all circumstances, dining at the farm

houses of some, taking tea at the homes

of others, and seeing many of the young

people, and the children, from the well-

known of the household during the

absence of the master and mistress. Of

course there was variety both in the home

and the children; from the well-known

master and mistress. Of course there was

DIRECTORS DINE.

Handsome Decorations and a Reche-

reche Repast at Hotel Quinte;—Mr.

Bairst Prized.

The annual dinner of the Directors of

Hotel Quinte at the hotel last night was

a most pleasant affair and the decorations

were almost a work of art. The President,

Mr. H. Corby, and all present expressed

themselves as being much entertained and

delighted. The table was twenty-eight

feet round, seating fourteen people (directors

and themselves). Thinning round was

strewed with champagne and the table

was decorated with four lamps with

colored shades, and at each plate stood

a lighted candelabra with a shade. The

table was decorated with pink and

white. The effect of the deep glow of the

lamps, the red, pink and pale green silk

and the green muslin was beautiful in the

extreme.

The waitresses also were worthy of note.

Their costumes of black, with white collars

and white gloves, and the snowy white

of the shoulder and dainty cap, was a

pretty sight as they took their instructions

from the signal of the bell operated by Mr.

Bairst at a separate table.

The dinner broke up at 11.15.

In proposing the toast of "Our Host

and Hostess," Mr. Corby paid a high

tribute to Mr. and Mrs. Wallace, and

definitely felt to make the toast a

success, and his sentiments were voiced by

all the other directors.
